THE RISE OF THE DOUGH

Belgian NFT Launchpad

The Waffle Social Club will **collaborate with Belgian artists** from all creative spheres to create their own NFT collection.

We believe that the WSC can become **sponsors** of the Belgian NFT wave and the bridge between the **real world** and **the web3**.

One of the founding ambitions of the Waffle Social Club is to create the first physical NFT gallery in the heart of Brussels & its metaverse doppelganger.

Exhibitions will feature WSC-owned* NFTs, but also members' NFTs. It'll be the perfect space for the Belgian NFT enthusiasts to ***meet & exchange***.

The gallery will serve two more purposes: act as an important ***crypto-art dealer*** and ***raise awareness in the general public***. Helping the interested in investing into NFTs is part of the game plan.

*The NFTs acquisition for the WSC will be decided through community decisions.

Transparency is what we aim for. Any news, updates, changes, ... will be shared with the Waffle Social Club.

The **core Waffle team** has a founding vision but its direction and future will be decided through the WSC decisions.

At least, you can blame the team if the waffle is inedible.
